

TUTORIAL - KACARS INSTALLATION

TUTORIAL – Install and configure kACARS V2

Download the installation package, uncompress and install the .msi file.

After successful installation choose application properties and check “Run this program as administrator”:

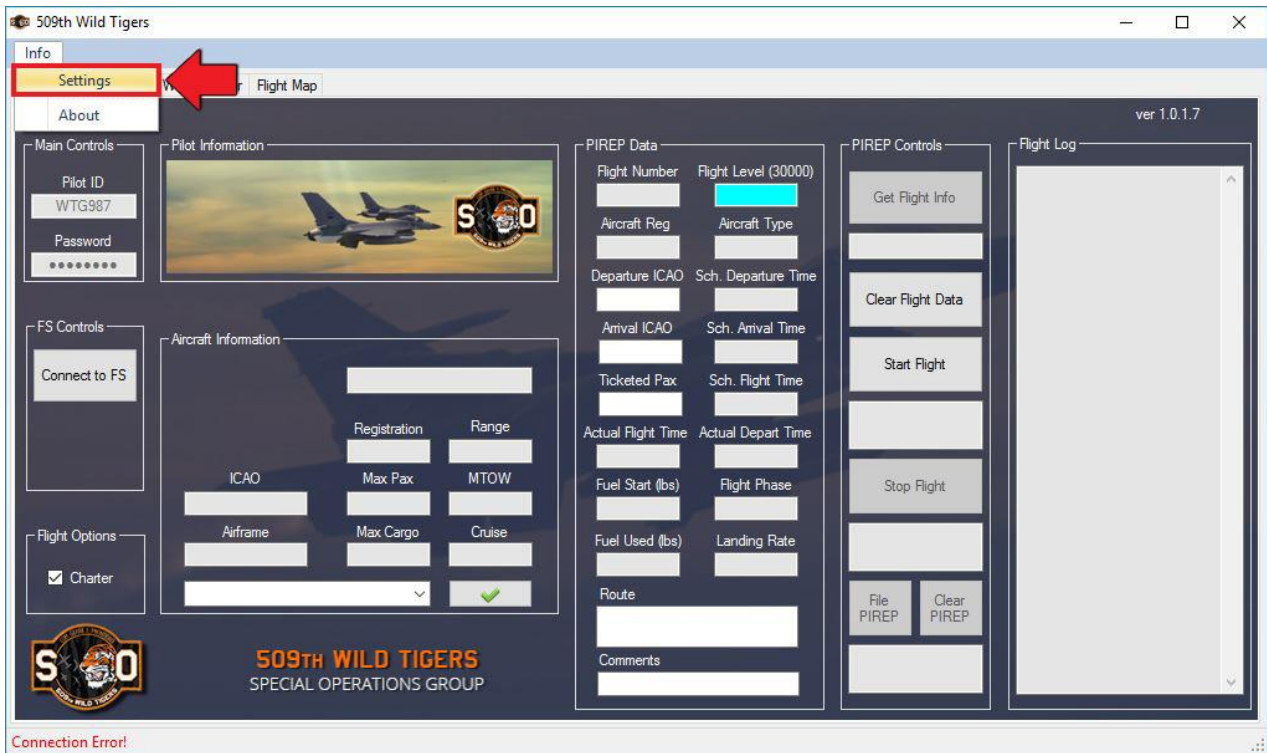

Run the application and login with your ID and password:

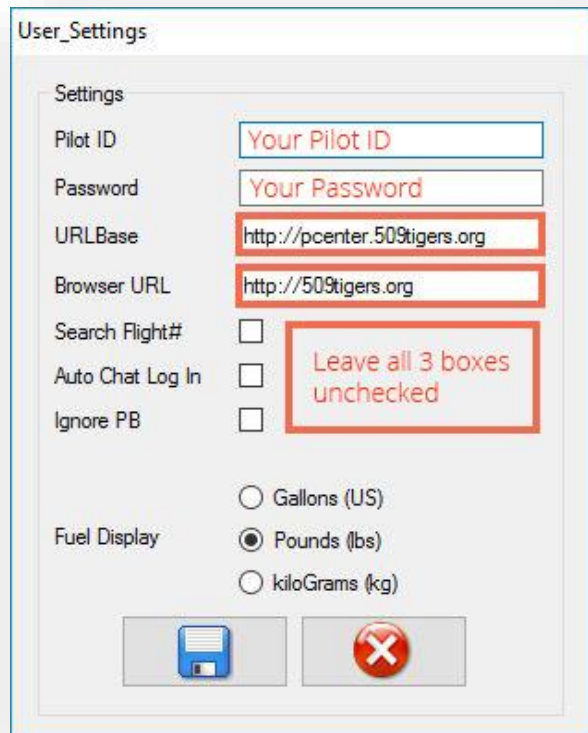

Open Settings:

Check and fill in the form according to the picture:

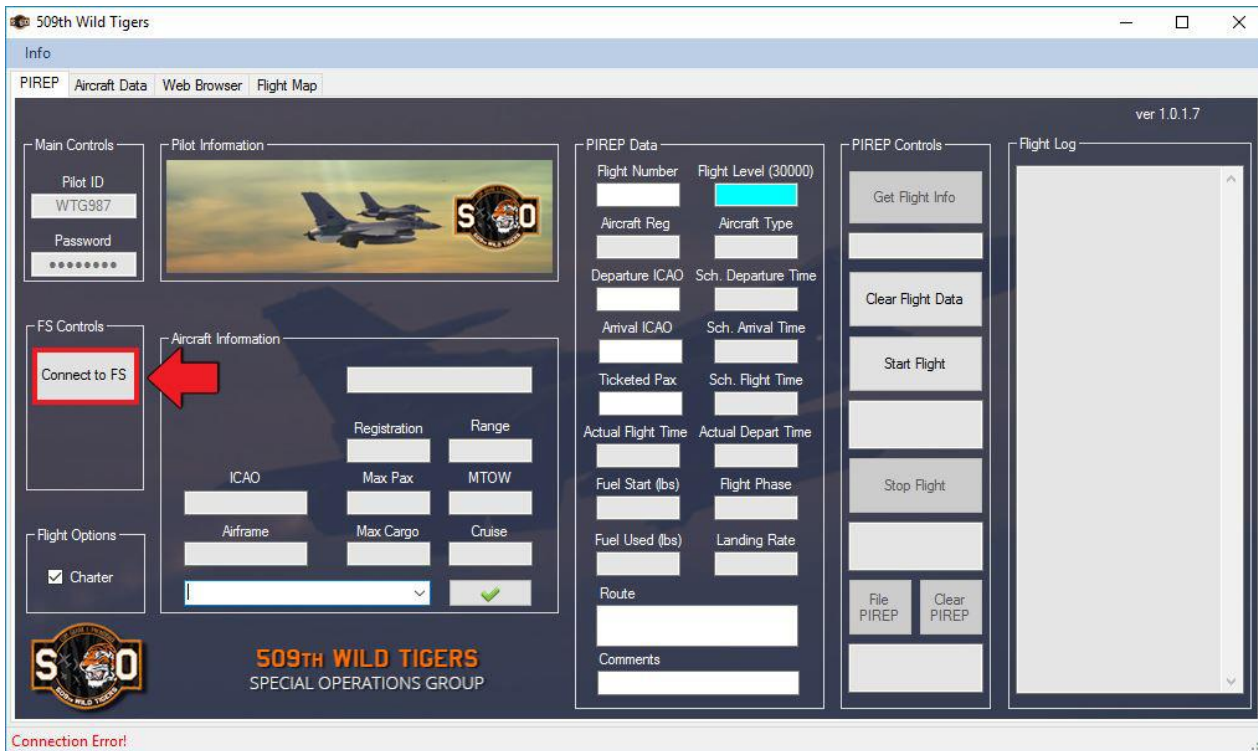

Connect to FS (only after FS up and running)

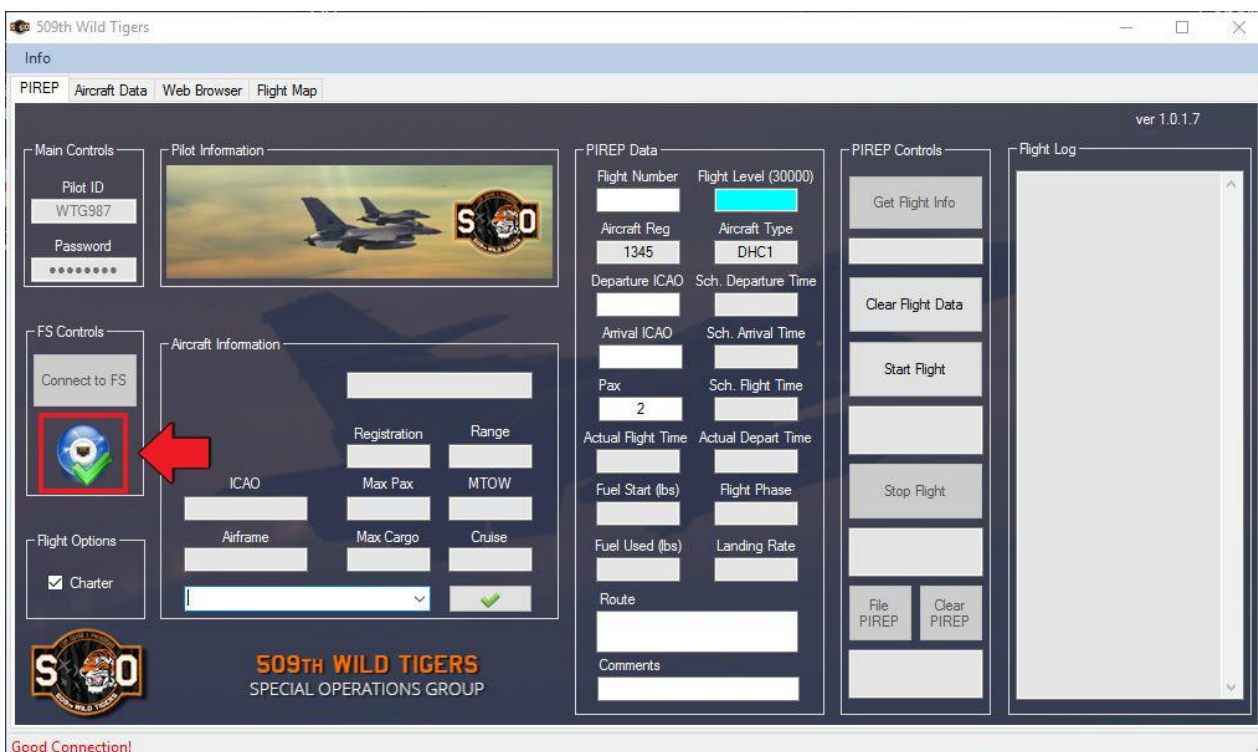

Note: FSUIPC or XPUIPC is needed to be installed on FS

FSUIPC: <http://www.schiratti.com/dowson.html>

XPUIPC: <http://www.tosi-online.de/XPUIPC/XPUIPC.html>

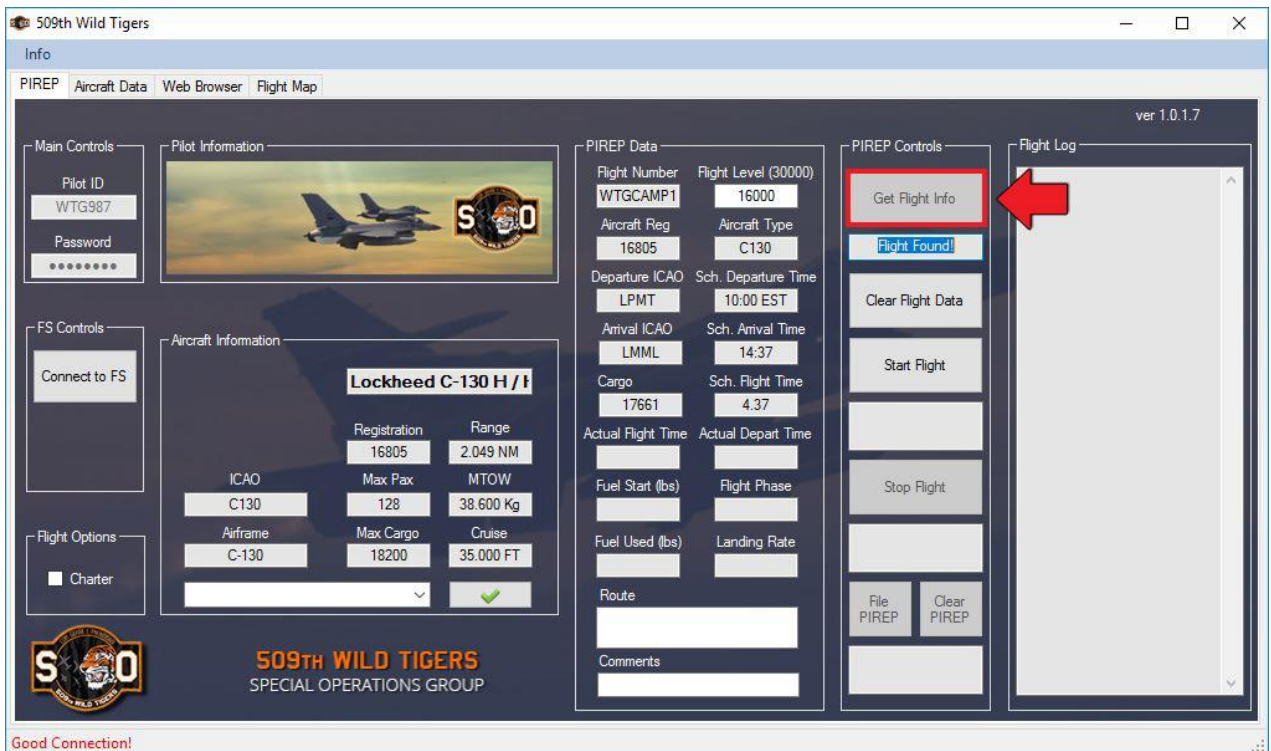

After successful connection to FS:

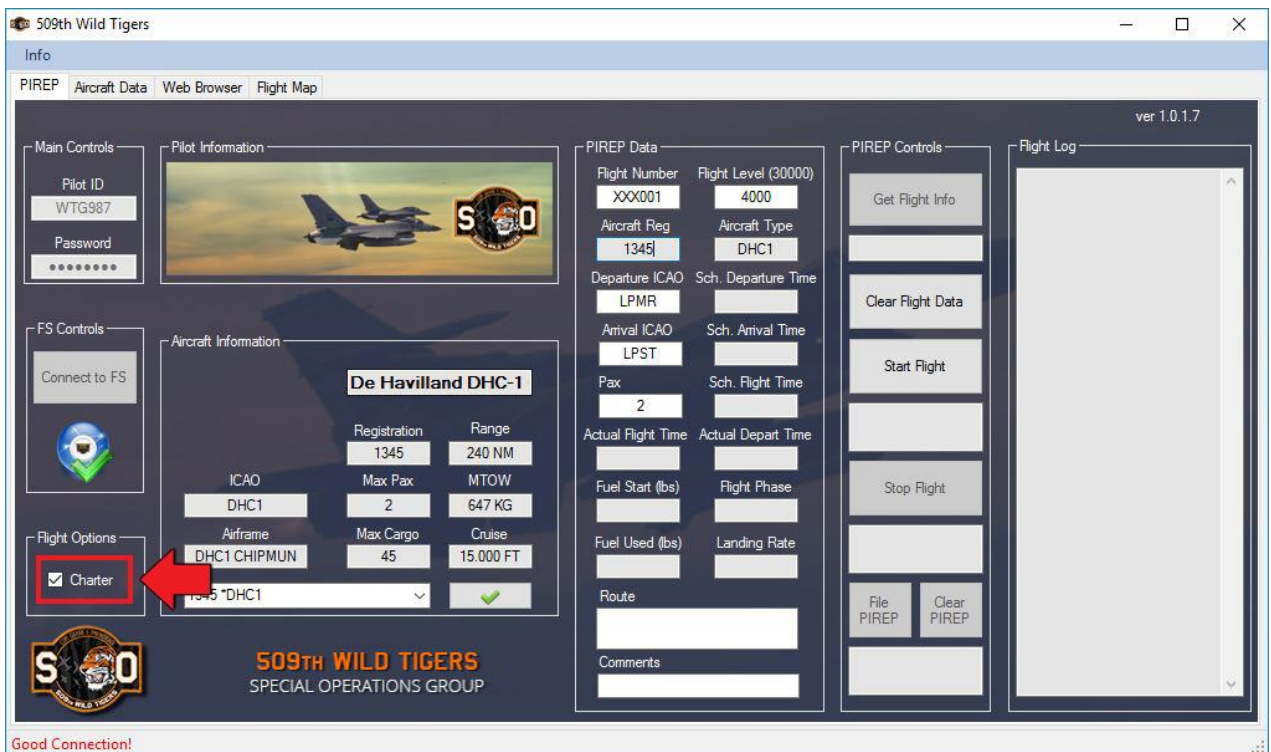

If you have selected a flight bid in Pilot Center, simply choose “Get Flight Info” and all fields will be filled automatically:

If you do not have a schedule flight in your bids you have to choose a charter flight:

DO NOT FORGET TO CHOOSE YOUR AIRCRAFT AND ROUTE ALONG THE OTHER INFO REQUESTED

Enjoy
